

INTRODUCING

TracVision® RV1

Satellite TV Antenna for Vehicles

Premium in-motion antenna system for RVs

Big fun in a small package!

World's smallest and lightest antenna

KVH's ultra-compact TracVision RV1 is the smallest and lightest in-motion satellite TV system on the market, bringing you premium satellite TV entertainment throughout the continental U.S. and selected areas of Europe. Thanks to KVH's RingFire™ technology, the TracVision RV1 offers a 34 cm (13.5 inch) antenna with the highest gain in its class, delivering crystal-clear satellite TV programming wherever you go, even in poor weather. Best of all, the single-cable design makes installation a snap!

Enjoy your favorite satellite TV programs

Whether you're parked or cruising down the highway, enjoy standard-definition programming from DIRECTV®, HD service from DISH Network® and Bell TV, and both standard- and high-definition programming from select linear Ku-band regional services worldwide. That means you can access hundreds of channels of satellite TV programming and music while on your way to your next travel destination. The in-motion operation of TracVision RV1 provides rapid satellite acquisition, and ultra-quiet operation thanks to KVH Whisper Drive™ technology.

TV-Hub for easy operation

The streamlined TracVision TV-Hub is an innovative solution to the satellite TV antenna system's control functions. An IP-enabled antenna control unit with Ethernet connection and built-in Wi-Fi interface, the TV-Hub enables access to system information from any mobile device or computer. It also provides a wizard for easy installation so you can easily get your system up and tracking in no time. Plus, the TV-Hub enables automatic satellite switching, which makes it easy to access all programming and local channels anywhere you travel.

Features & Benefits

- Ultra-compact, 34 cm (13.5 inch) antenna
- Fast, reliable, and automatic in-motion satellite acquisition and tracking
- Supports DIRECTV®, DISH Network®, DISH HD, Bell TV, and select linear Ku-band regional services worldwide
- HDTV-compatible (Ku-band services only)
- Proprietary RingFire™ technology for stronger signals, wider geographic coverage, and better reception even in poor weather
- Single-cable installation, even for multiple receivers
- Ultra-quiet Whisper Drive™ motor technology for quiet operation
- DVB®-S2 compatible
- Global support from KVH's Certified Support Network (CSN)

The TracVision TV-Hub is a streamlined IP-enabled antenna control unit that makes the RV1 extremely easy to use

Technology in hand

The all-new TracVision TV-Hub brings unparalleled ease to every aspect of controlling your TracVision RV1 with a state-of-the-art web interface designed for optimal viewing on any smartphone, tablet, smart TV, or computer:

- Wizard for easy installation and setup
- Fast troubleshooting with antenna status and advanced system diagnostics
- Future-proof design with remote software and satellite library update feature
- Fast setup for integrating with an onboard network
- Advanced automatic or manual satellite switching capabilities with one touch
- Extensive built-in worldwide satellite library
- IP AutoSwitch option for multiple receiver installations. When used with a DiSEqC-compatible satellite receiver (DISH Network, Bell TV, and linear services), IP AutoSwitch provides simple, automatic switching between satellites using the master receiver's remote control.

TV-Hub user interface provides system control from any mobile device or computer.

TracVision RV1 Specifications

Satellite Coverage Regions ¹	North America & Europe ^{2,3}
Compatible Satellite TV Services	DIRECTV, ⁴ DISH Network, Bell TV Linear Ku-band regional services worldwide ²
Antenna Unit Diameter x Height	34.3 cm x 33.7 cm (13.5" x 13.3")
Antenna Unit Weight	3.6 kg (8 lbs)
HDTV Compatible	Yes ⁵
LNB Types Available (polarization/output)	Linear Universal Single ⁶ Circular
User Interface	TV-Hub web interface
Satellite Acquisition	DVB-S2
Supports Multiple Receivers (dual-output LNB)	Yes (Circular LNB)
Automatic Satellite Switching	Yes
High Signal Strength Acquisition (50-51 dBW)	Yes
System Power	10-30 VDC 42 watts nominal
Warranty ⁷	2-year parts, 1-year labor

¹ Services may require different LNB types.

² Limited coverage in certain regions in N. America and Europe; visit www.kvh.com/footprint for details.
