The service is designed to provide access to the public internet, primarily for web browsing and email. Certain applications like VoIP, teleconferencing, and streaming media are designed to use a constant amount of bandwidth, and as a result consume more network resources than normal Internet access. By purchasing a minimum (Committed Information Rate) in addition to the standard bandwidth, you will insure the highest quality when using these applications. Use of these applications without is a violation of the Terms of Service, and will result in additional charges.
